moves to bring them back tomorrow you have defeated the purpose of advancing them tonight anyway, have we not?

SPEAKER: Members of the Legislature, I visited with Emery Burnett this morning. He informed me that we are right up against a deadline and if we can not pass these by the 16th if they are not in shape for that, they must be even with the suspension of rules. They must be on Final Reading in one day. I would wish that this body would try and figure out any....

SENATOR DICKINSON: We can't possibly do what I think is going to be attempted to be done on LB609, and get it done tonight. Senator Koch made a valid point, although I oppose the measure that he had reference too. It is totally unfair for someone to try and get action. I think that those of us who have stuck it out have done that much for the body. If they are not all here we can not be a legislature. I personally have to leave. Can I speak for you Senator Stoney, I know that he has a commitment that means two more of us will be gone.

SPEAKER: If these extra curricular programs or projects are the wish of this body, then make a motion to adjourn. I object to it and I will vote against adjournment.

CLERK: Mr. President, I move that we adjourn, signed Senator Dickinson.

SPEAKER: Have you all voted? Clerk will record.

CLERK: 14 ayes, 13 nays.

SPEAKER: We are adjourned.
